

SCHOOL DISTRICT OF  
NEILLSVILLE

A reminder for students and parents.

We suggest you hang it on the refrigerator or someplace near where students are working on schoolwork.

# VIRTUAL LEARNING TIPS

## KEEP A STEADY SCHEDULE

On days your student is learning from home, try to maintain a consistent schedule as much as possible. Take breaks and have lunch at around the same time each day. This will provide a sense of structure for students.

## CREATE THE RIGHT SPACE

Designate a room or area of your home where your student will do all or most of their virtual learning. Make this space as conducive to learning as possible, with a table or desk, comfortable chair, adequate lighting and relatively few distractions.

## CHECK IN ON LEARNING

Be sure to check your email for any messages from your child's teachers. Ask your student about the assignments they are working on and upcoming due dates. Have your child give you a brief progress report in the morning and afternoon.

## STAY ORGANIZED

Encourage your child to stay organized in both their physical and digital spaces. Their work area should be free of clutter and distractions. On their laptops or mobile devices, they should have a good system for storing files and documents so they can find what they need quickly.

## BE PATIENT

Virtual learning does not come easily to everyone. While the pandemic remains a factor in our lives, students may need some extra help staying on track and getting accustomed to the demands the virtual learning presents. Be understanding and patient as your student makes these transitions.
