

Career Cluster Lesson Plan Template

We will have brief lessons on all 16 career clusters based on a two year rotation; we will get through 8 Career Clusters each year. The clusters below are linked to the ADVANCE CTE website where I am getting the Framework for each cluster.

The lesson plan will always consist of a video or two to give a brief introduction/overview to the cluster and may include a secondary video that gives more specific occupational outlook information. Most of the videos will be Youtube videos provided by [CareerOneStop](#).

Note: CareerOneStop also has great individual career videos linked [HERE](#).

Please refer to the [DPI Labor Market Guide](#) when discussing possible occupations they might want to look into further based on projected job openings & income.

Following the videos, the students will be directed to visit the [Wisconsin Career Pathways website](#) to look up basic information on three different careers. They will need to complete the chart on their worksheet.

Once completed, all worksheets should be placed in their Career Binders. Students should use extra time to work on grade level assigned [Xello](#) Lessons.
