

**School District of Neillsville
Food Service Account
Daily Limit or Block Account Form**

DAILY LIMIT

You may place a daily limit (threshold) on your child(rens) food service account so they are limited on what they can purchase on your family food service account. Please remember that your child's daily limit (threshold) needs to include meals that you pay out of pocket.

For example: If your child is identified as a full paid elementary student and takes breakfast and lunch, you would need to have your daily limit (threshold) to be at least \$3.65. Using the \$3.65 as the daily limit (threshold) would allow this child **NO** seconds or ala carte items. Another scenario for this child would be to enter a daily limit of \$7.00. Now your child would be able to eat breakfast, lunch and also have the choice of seconds and/or items from the grab and go line using the remaining \$3.35 (\$7.00 minus \$3.65) that you have allowed them for the day.

Please place a limit per day on my child(rens) food service purchases as listed below:

_____	\$ _____	_____	\$ _____
_____	\$ _____	_____	\$ _____
_____	\$ _____	_____	\$ _____
_____	\$ _____	_____	\$ _____

BLOCK

You may place an "ala carte block" on your child(rens) food service account. This will allow them to charge only regular meals (full breakfast meal and full lunch meal) and NOT be allowed seconds or any ala carte items from the grab and go line. However, your child(ren) can still take a box meal with a milk from the grab and go line for breakfast or lunch as a full meal choice (just no additional "ala carte" items).

Please block all Ala-Carte Purchases from my child(rens) account as listed below:

_____	_____	_____
_____	_____	_____
_____	_____	_____

I would like the above information placed into effect as soon as possible.
